Dear Bill

We have noted your update on the Legacy inspection acceptance discrepancy list. We have had contact with our Captain Princewill who is there with you and he has spoken superlatively about your wonderful display of professionalism. We are proud that our consultant Lawrence was able to identify an expert like you.

We believe that your opinion on the airworthiness of the Legacy 891 is most appropriate and reassuring and look forward to your report on the subject matter.

The Rivers State Government delegation is expected in Brazil on Tuesday, June 14 and hope all should have been okay for the ferry flight a few days thereafter.

Yours faithfully,

Glory Ogbonda Emeh
Honourable Commissioner
